Ruveyda Hilal Akçınar

✉ akcinarruveyda@gmail.com 📞 5398251499 📍 İstanbul,Turkey

Education

Duzce Universty
Management Information Systems
OCT 2018 - JUN 2022

- GPA 3.46
- I graduated in the top 5 of my department.

Languages

English: Intermediate

Turkish: Native

Technical Skills

- Functional Tests
- Performance Tests
- API tests /Postman
- Integration Tests
- Java

- Selenium
- Cucumber
- CI/CD, Git,Jira
- OOP
- Design Pattern

Professional Experience

NS Textile

QA Tester   Jan 2023 - Oct 2023

- I conducted white box testing in the ERP system for a project developed to track all products, trucks, and orders of a factory exporting to three different countries.
- I prepared functionality test operations for all developed software, hardware, and applications by creating test scenarios according to the analysis documents and added them to the testing process. I also executed the tests.
- I reported any errors and other issues found in the tested products to the relevant software personnel in a detailed and understandable manner.
- I performed digital archiving for all types of records/documents generated.
- Using Selenium, I created and implemented automation test scenarios, thereby automating manual test processes and increasing test efficiency. As a result of these efforts, we developed an effective test strategy to improve product quality and reduce error rates.

AugeLab R&D Tech. Inc

Full Stack Web Developer Intern   Dec 2021 - May 2022

– Collaborating with developers and designers within the company, I developed AugeLab's corporate website using HTML, CSS, JavaScript, and Asp.net.
– I learned about emerging technologies and made efforts to provide technical guidance and creative solutions.
– Crafted SEO strategy and intuitive interface for site to achieve prominent rankings across top browser platforms.

Achievements

Efor All Entrepreneurship Competition / Team Pole Star / 1.st

Disabled individuals may have difficulty going to social places because they do not know which place is suitable for them or not. As a team, we aimed to create a website called Polestar to enable disabled individuals to find places that provide an environment suitable for their disabilities.
